Education

University of Western Ontario

London, ON

Bachelor of Science in Computer Science

Sep. 2022 – April 2026

- Extra-curriculars: Western Scholarship of Distinction, IBM (Western Technology Consulting Competition) Best Novice Award, Western Wrestling Varsity Athlete
- Coursework: Computer Architecture & Organization, Data Structures & Algorithms, Operating Systems, Introduction to SE, Discrete Mathematics, Statistics, Quantum Computing, Linear Algebra I & II, Calculus I & II

Experience

Project Coordinator (Co-op)

Jan 2026 – Aug 2026

Mitsubishi Heavy Industries Regional Jets (MHIRJ)

Mississauga, ON

- Drove 100% on-time return-to-service across aircraft in critical 40,000-hour heavy checks by coordinating engineering, supply chain, and procurement teams to secure parts under tight project dependencies.
- Owned weekly customer calls and internal escalations for critical AOG parts, resolving sourcing delays and improving operational reliability across a multi-operator regional jet fleet.
- Built a leadership action register in Microsoft Lists to drive stakeholder accountability on decisions, owners, and due dates; led daily management and staff meetings and prepared their reporting packs.
- Presented a new maintenance diagnostic mobile app to suppliers and airline customers at the Technical Steering Committee, an international industry event.

Performance Analyst (Co-op)

May 2025 – Dec 2025

Mitsubishi Heavy Industries Regional Jets (MHIRJ)

Mississauga, ON

- Maintained real-time operational data across a 2,000+ aircraft global fleet, delivering daily out-of-service and fleet-status reports that ensured reporting accuracy and operational visibility for airline customers.
- Automated weekly critical-parts reporting by extracting 10,000+ row SAP back-order datasets and resolving them with INDEX/MATCH composite-key lookups and conditional logic, replacing a manual search process.
- Developed executive dashboards and visualizations from raw SAP data, presenting fleet performance trends and KPIs in weekly leadership meetings to support strategic planning and decision-making.
- Analyzed drawing loan agreement turnaround times by reconstructing timelines from customer correspondence, delivering governance metrics presented at the leadership level.

Marketing & Sales Representative

Jun 2023 – Aug 2023

4CornerMarketing

London, ON

- Applied market insights and CRM tools to optimize sales strategies and strengthen customer relationships, improving sales performance and satisfaction.
- Implemented CRM software for sales tracking and forecasting, and executed upselling and cross-selling strategies that increased sales and customer loyalty.

Web Developer

Sep 2021 – Jun 2022

Freelance

London, ON

- Developed and maintained websites using HTML, CSS, and JavaScript, applying SEO techniques and web analytics to improve visibility and user engagement.

Projects

GeoCraft | Java, Bitbucket, Jira, Confluence

Jan 2024 – April 2024

- Built an educational game with a team, implementing game mechanics, graphics, and user interactions in Java, with Bitbucket, Jira, and Confluence for version control, project management, and documentation.

AirManage | Python

Sep 2022 – Dec 2022

- Created a program to manage airport data and find flights between cities and countries, with extensive testing and performance optimization.
